RC10-T

Box Dimensions

Box Only Length	11' 1"
Box + Catwalk (Overall Length)	13' 1"
Height	6' 11"
Asphalt Capacity	10 Tons
Weight (Empty)	8,425 LBS
Weight (Loaded)	28,785 LBS

Keep Asphalt Hot (48 Hours)

Reclaim Cold Asphalt (12 Hours)

Performance Guaranteed

***Ideal for utility contractors, pavers
and asphalt producers!***

The RC10-T is a 10 ton reclaimer that can be configured to dump from a truck chassis or mounted on a roll off A frame for a hook truck setup. This unit will keep asphalt hot from the plant for 48 hours as well as reclaim cold materials in 12 hours. Utility companies use these boxes to haul asphalt to the jobsite and pavers/asphalt producers use them for fresh, hot material deliveries!

Fuel Type	Propane (Vapor)	Heat Transfer Type	Hot Air Jacketed
Fuel Supply	(1) 85 GAL Horizontal Tank	Insulation Type	2" Rigid Insulation Throughout
Regulator Setting	11" Water Column	Outside Wall Material	10 to 16 Gauge Double Walled
Fuel Tank Connection	Excess Flow Check Connection	Hopper Material	12 Gauge (For Extended Longevity)
Rail Material	6" Heavy Duty Channel Steel	Reclaimer Capacity	10 Tons
Cross Member Material	4" Channel Steel	Top Loading Doors	Hydraulic / Bi-Fold
Lighting	LED Strobes	Discharge Doors	Hydraulic
Power Supply	Wired to Truck Battery	# of Discharge Doors	(3) On Rear of Reclaimer
Catwalk	Diamond Plate w/ Rail at Front	Hydraulic Controls	Located Passenger Side Rear

Hydraulic Hoist Installation - If you are choosing to have this box mounted on a chassis to dump, we will work with you to arrange for the hoist installation.
