Heat - Tach Seam

(AI rendering - Actual pictures coming soon. Design subject to changes.)

Dimensions

Chamber Length	3' 6"
Chamber Width	13'
Empty Weight	850 LBS
Loaded Weight (w/ Fuel)	1,250 LBS

Quick Attachment

Easy To Operate

Performance Guaranteed

Designed to quickly attach to a skid steer & fully self contained!

The Heat-Tach Seam features a 3' 6"L x 13'W completely stainless steel infrared heating chamber mounted on a universal plate to mount on a skid steer. The power and fuel source are securely mounted on the chamber itself to provide for a fully self contained attachment. This machine is designed for full lane width heating of crosscuts and joints!

Fuel Type	Propane (Vapor)	Blower Type	(2) 115V Brushed Motors
Fuel Supply	(2) 100 LB Cylinders	Chamber Material	Stainless Steel
Regulator Setting	11" Water Column	Converter Style	Welded Ribbon Orifice
Attachment Method	Universal Plate for Skid Steer	Converter Material	Stainless Steel
Power Supply	Propane OR Hydraulic Generator	# of Converters	(9) 36" Converters
Grid Style	Stamped & Rolled	Grid Material	High Heat Nickel Alloy
Manifold Material	Stainless Steel	# of Grids	(18) 18" Grids
