Heat - Tach

(AI rendering - Actual pictures coming soon. Design subject to changes.)

Dimensions

Chamber Length	6'
Chamber Width	8'
Empty Weight	1,500 LBS
Loaded Weight (w/ Fuel)	1,900 LBS

Quick Attachment

Easy To Operate

Performance Guaranteed

Designed to quickly attach to a skid steer & fully self contained!

The Heat-Tach features our most popular 6'L x 8'W completely stainless steel infrared heating chamber mounted on a universal plate to mount on a skid steer. The power and fuel source are securely mounted on the chamber itself to provide for a fully self contained attachment. This machine is perfect for contractors and municipalities alike for virtually any repair!
