RC2-T (SI)

Box Dimensions

Length	7' 8"
Width	5' 2"
Height	5' 2"
Asphalt Capacity	2 Tons
Weight (Empty)	2,000 LBS
Weight (Loaded)	6,200 LBS

Keep Asphalt Hot (48 Hours)

Reclaim Cold Asphalt (12 Hours)

Performance Guaranteed

Designed to slide into dump body or onto flatbed!

The RC2-T (Slide In) is a 2 ton reclaimer configured to slide into a dump body or onto a flatbed. This unit will keep asphalt hot from the plant for 48 hours as well as reclaim cold materials in 12 hours. Utility companies use these boxes to haul asphalt to the jobsite and pavers/asphalt producers use them for fresh, hot material deliveries!

Fuel Type	Propane (Vapor)	Heat Transfer Type	Hot Air Jacketed
Fuel Supply	(2) 100 LB Vertical Cylinders	Insulation Type	2" Rigid Insulation Throughout
